Initiative

Secure electronic transactions – application of EU rules (report) (</info/law/better-regulation/have-your-say/initiatives/11973-Secure-electronic-transactions-application-of-EU-rules-report-/en>).

It now looks clear that Self-Sovereign Identity (SSI) will be the foundation of foundations. This is especially important to enable a wide variety of data providers and data users in large ecosystems across borders in Life-Event Driven service design and Real Time Economy. Has this been taken into account?
